# OKLAHOMA PLAYER WINS ROCKET GOLD

***ROCKET'S GOLD SERIES® AWARDS OVER \$5,000,000 IN LESS THAN A YEAR!***

October 14, 2010 – Rocket Gaming Systems® (Rocket) proudly announces that a fifth winner has been awarded the top progressive prize from the play of its successful Gold Series® line of Class II video titles. This win marks the fifth Gold Series top progressive prize winner since the Gold Series product line was introduced in November 2009.

The lucky player won \$1,049,223.01 playing Golden Sunrise® at **Kickapoo Casino** in Harrah, OK on September 28, 2010. Kickapoo Casino is owned and operated by the federally recognized Kickapoo Tribe of Oklahoma.

### **Gold Series now offered in mechanical reel (Stepper) games.**

In addition to the current set of six video titles, Rocket's Gold Series now includes three brand new mechanical spinning reel titles. These 3-reel, 1-line products offer players an exciting gaming experience with the same top-mounted bonus wheel they've come to love in the Gold Series video games. Most importantly, all Gold Series players compete for a top progressive prize of over \$1,000,000. The new Gold Series mechanical reel "Stepper" titles are Gold Cup™, Golden Sunrise®, and White Gold™.

"It's exciting to know we've given away over \$5 Million through the Gold Series in such a short time," said Rocket CEO/President, Ron Harris. "It's also gratifying to know that the Gold Series has made it possible to contribute to the important mission of the National Indian Gaming Association," he added.

As a proud supporter of the National Indian Gaming Association, Rocket has donated over \$300,000 to date from revenue generated by the Gold Series in support of the group's mission of protecting tribal sovereignty.

**Rocket Gaming Systems**, a business enterprise of the Miami Tribe of Oklahoma Business Development Authority, provides linked interactive electronic gaming systems and player stations for central determinant gaming markets. Rocket provides games to its customers through a nationwide, high-speed communications network that lets players in multiple facilities simultaneously compete against one another for wide area progressive jackpots.
